EXPERIENCE (4.5+ Years of Experience)

Head Digital Works, Bengaluru, Senior Software Engineer

March 2020 - PRESENT

Worked on restructuring cricket.com to provide better accessibility and reduce initial loading time for a better user experience at scale with zero down time.

I have worked on the following modules.

- Have Experience with FrontEnd and Backend stack.
- Move the entire platform from static-regeneration to **Node.js+Next.js+React.js** for SSR, and ISR support.
- Created FRC module to provide live fantasy research data for utmost every ongoing match.
- **Commentary** revamp to provide better live commentary visibility for BallBYBall and OverByOver.
- Worked over **caching** solutions for faster commentary and score access for live matches.
- Revamp teams, **player discovery** and schedule user interface.
- Create a **tool** to do stress testing on the application, so in future we can handle any incoming traffic at scale.
- Integrated **Grafana + influxdb + Filebeat** to manage crucial system logs.
